Cell Entry Mechanisms and the  
Impact of Antibodies on Infectivity

Mareike van Duijl-Richter

The research described in this thesis was primarily performed at the Department of Medical Microbiology of the University Medical Center Groningen (UMCG) within the Groningen University Institute for Drug Exploration (GUIDE).

This work was financially supported by GUIDE and the Jan Kornelis de Kock foundation (Groningen).

The printing of this thesis was financially supported by the University of Groningen and the Graduate School of Medical Sciences.

# Dengue and Chikungunya Virus

Cell Entry Mechanisms and the Impact of Antibodies on Infectivity

## Proefschrift

ter verkrijging van de graad van doctor aan de  
Rijksuniversiteit Groningen  
op gezag van de  
rector magnificus prof. dr. E. Sterken  
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

3 februari 2016 om 11.00 uur

door

**Mareike Karin Susanne van Duijl**

geboren op 18 september 1986  
te Emden, Duitsland

**Promotores**

Prof. J.M. Smit

Prof. A.M. van Oijen

**Beoordelingscommissie**

Prof. E.J. Snijder

Prof. F.M. Reggiori

Prof. S.P.J. Whelan

# Contents

Chapter 1	General Introduction and Scope of the Thesis	9
Chapter 2	Dengue Virus Life Cycle and Pathogenesis	17
Chapter 3	Immature Dengue Virus Is Infectious in Human Immature Dendritic Cells via Interaction with the Receptor Molecule DC-SIGN <i>PLoS ONE</i> , 2014, 9(6): e98785	35
Chapter 4	Early Events in Chikungunya Virus Infection — From Virus Cell Binding to Membrane Fusion <i>Viruses</i> 2015, 7 3647-3674	53
Chapter 5	Dynamics of Chikungunya Virus Cell Entry Unraveled by Single Virus Tracking in Living Cells <i>Submitted</i>	81
Chapter 6	Chikungunya Virus Fusion Properties Elucidated by Single-Particle and Bulk Approaches <i>Journal of General Virology</i> (2015), 96, 2122–2132	109
Chapter 7	Development of a Highly Protective Combination Monoclonal Antibody Therapy against Chikungunya Virus <i>PLoS Pathogens</i> , 2013, 9(4): e1003312	131
Chapter 8	Strongly Neutralizing Antibodies against Chikungunya Virus Inhibit Infection at Multiple Stages of the Viral Life Cycle <i>Manuscript in preparation</i>	163
Chapter 9	Summarizing Discussion and Perspectives	189
Appendices	Nederlandse samenvatting	225
	Deutsche Zusammenfassung	233
	Contributing authors	240
	Curriculum vitae	241
	Dankwoord	242
